

## 2016 PLANT SOURCES for

### MID-ATLANTIC NATIVE PLANTS

Following is a partial list of nurseries that either specialize in or carry a majority of native plants. No endorsement is implied by inclusion. Also, remember to contact your favorite local nursery. They may be able to order the plants you need.

Some things to remember when searching for native plants:

- Do NOT dig from the wild. Wild plants are often difficult to transplant and wild collecting depletes an already stressed resource.
- Buy from a reputable source and buy only nursery propagated plants.
- Use straight species when possible. This will help continue the genetic diversity.

Please also note the list of plant sales that are sponsored by conservation organizations. These sales are excellent places to acquire natives.

(revised 2/29/16)

### SPECIALTY NURSERIES
